**Subj: Caron Fabrication Spring Green 119**

### **POINTS MEMO**

The Caron Fabrication Spring Green 119 will be a “show points” event for the Foley Oil & Propane Late Models. All Late Model teams who attempt to qualify for the event will receive 50 championship points. We understand the challenges associated with qualifying for an ACT Late Model Tour event, and we also realize it is the first event of the year, when some teams are still undecided whether they will contest the full weekly schedule. Therefore, we believe this decision to be in the best interests of everyone. The regular White Mountain Motorsports Park point system will be in effect beginning at the May 18 event.
