

TECH MEMO REVISED

To: ACT Flying Tiger Participants (Thunder Road & White Mountain)
From: ACT
Date: March 26, 2021
Subj: 2021 Tire Policy

For the 2021 season, Flying Tiger teams at Thunder Road and White Mountain Motorsports Park may register up to four (4) tires from the 2020 registered race tire inventory for that driver. You may NOT register tires for 2021 that were registered to another driver in 2020.

Teams may use these tires from 2020 for the respective track's first three (3) point-counting events of 2021. After this point, all tire inventories must be switched to the Hoosier tire mandated for that division.

The **ACT Flying Tigers** will not have a tire inventory limit at this time. Tire inventory is still interchangeable between Thunder Road and WMMP.

Tire plan is subject to change at any time and will be announced at earliest possible time.

The **ACT Flying Tigers** will use 7-inch Hoosier tire with a 790 compound.

All Tiger tires purchased can be race or practice tires.

If you have any questions, contact Cris at the Thunder Road office.
